

# Frequently Asked Questions

**Q What types of lights and poles are available?**

**A** We have many different types of lights and poles available; the most common ones are described in this document.

**Q How do I determine what type of light and pole I need at my residence?**

**A** This depends on how much of an area you want to light up and how much you want to pay for this service.

**Q How much light will be generated?**

**A** This depends upon the light selected. The closer to the light/pole, the brighter the illumination. Illumination levels dissipate as you move away from the light source. Refer to inside of this brochure for further details.

**Q Can I have you install a light on my own pole?**

**A** No, we can only install lights on our own poles.

**Q Who maintains the light and pole and what is the cost?**

**A** The light and pole are maintained by the UC and the maintenance costs are included in the monthly rates.

**Q Do I own the light and pole once I have paid for them to be installed?**

**A** No, they remain the property of the UC.

For more information or to sign up for a street light, please contact Customer Service at 427-1361.

Our mission at the Utilities Commission is to provide our customers with timely, cost-effective, and high-quality products and services.

## How did we do?

We want to know! Please visit [www.ucnsb.org/contact.aspx](http://www.ucnsb.org/contact.aspx), print out a "How Did We Do?" comment form, and mail, fax, or bring the completed form to the UC.

Thank you for your participation!

## Please Note:

*All rates shown in this publication do not include the Fuel and Purchased Power Cost Adjustment Clause and tax, if applicable.*

*In addition to the listed rates, a turtle shield may be required for lights installed on beachside (installation rate \$65.48; monthly rate \$0.56).*

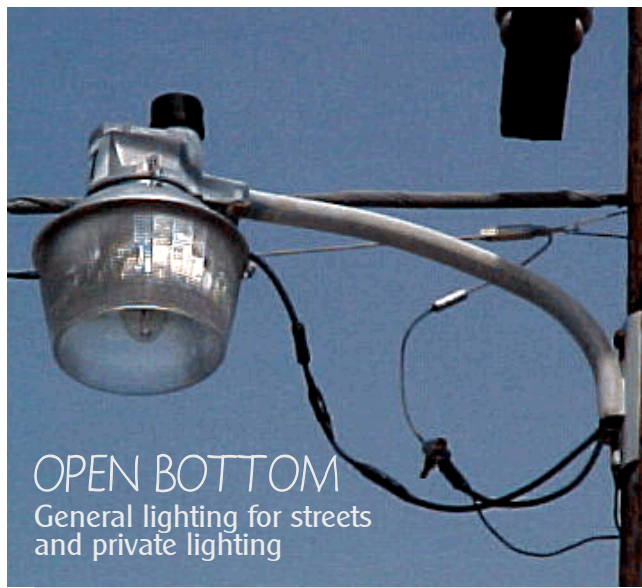

*Rates subject to change. Current as of May 2009.*

*Photos in the publication are examples of the three most commonly-requested outdoor lighting fixtures and do not necessarily represent the exact models of fixtures/poles available. Images are for illustration purposes only.*
